## ABOUT OF THE INSTITUTION

Global Bio-Chemic Homoeo and Holistic Medical College, located in Himatnagar, Gujarat State, an Autonomous Body established by statutory law, is an Educational institution. It is a recognized Institution registered by the Government of Gujarat under the Act-1860, working since the Year 2016 in the field of Integrated Systems of Medicine, Acupuncture, Paramedical, Yoga and Naturopathy teaching and training and medical research.

And through our Medical College many Qualified, skilled, hardworking students are working in the Private and Government Medical Institutions, in the field of "AYUSH Health Wellness" Centers and Paramedical Healthcare. And the main objective of our Institute is to provide Education and Health to all, our only object.

## AIMS & OBJECTIVE

The aims of our Institute is to provide Education for all. The mission of the NGO'S Board is to achieve all round development and growth for the masses through education. Our main target is self employed working professional students who cannot complete their studies due to economic strains or other domestic reasons.

The NGO'S Board/Council trustees/members has the constitutional right under Article 19 (1) (G) to pursue any profession or any occupation and running teaching institutes have been included as part of occupation as held by Hon'ble Supreme Court in T.M.A. Pai Foundation Vs. State of Karnataka (SC) 2003 (2) SCT 385. The relevant portion of the above said Judgment is reproduced as under :-

"Private Education is one of the most Dynamic and fastest growing Segments of post-Secondary Education at the turn of the twenty first century. A Combination of unprecedented demand for access to higher education and the inability or unwillingness of government to provide the necessary Support has brought private Higher Education to the forefront. Private Institutions with a long history in many countries, are expanding in scope and number, and are becoming increasingly important in parts of the world that relied almost entirely on the Public Sector.

Not only has demand overwhelmed the ability of the Governments to provide Education, there has also been significant change in the way that Higher Education is perceived. The idea of an Academic Degree as private object, that benefits the individual rather than a public good for society is now widely (sic). The logic of today's economics and an ideology of privatization have contributed to the resurgence of private Higher Education, and the establishing of private Institutions where none or very few existed before.

## ABOUT NRMA

The National Rural Medical Association (NRMA) has been established, under by The Global Bio-Chemic Homeo and Holistic Medical College Statutory Provisions Act. and NRMA Association is a India largest leading Organization in the Field of Primary Healthcare Services, which is working in the Teaching and Training of Primary Healthcare in the country. It is Conducting to the Diploma course for 3.5 Year Duration, Diploma in Community Medical Services, under Guidelines of The W.H.O & UNICEF Government of India on a Regular Basis in all The States of India.

## OBJECTIVE OF NRMA

Therefore, our NRMA Association is not to promote quack Doctors, but we have to stopping those quack Doctors from promoting them. And our only main objective are will to Supporting of the Government Health Campaign of The Health and Family Welfare.

World Health Organization (WHO), UNICEF and Declaration of ALMA ATA AD-2000, International Convention for the Provider of Primary Health Services, meeting on the 12th day of September, in the nineteen seventies, and seventies Expressing the need for urgent action to protect all Governments, all Health and Development Workers, and the World Community, and to promote the Health of all Peoples of the world, a Special Priority has given to the provision of Primary Healthcare Services.

However, the Hon'ble Supreme Court vide its Important under Decision of Civil Appeal No. 152/1994 on dated 14th February 2003 has legally recognized CMS Diploma holders for providing Primary Health care. And under which almost all common infections and malnutrition diseases can be treated with the by Guidelines of W.H.O Essential Drugs.

The only objective of NRMA this is to make Primary healthcare Services available to all under the guidelines of WHO. while the fact that the Healthcare System are how much strong in our country cannot be denied. Apart from this, there is a huge shortage of MBBS Doctors according to the Population census of our Country, due to which everyone is not getting Healthcare services at the normal level. And our The CMS Primary Healthcare Providers is committed to provide primary healthcare at the lowest cost to the People below the Poverty line, and this is the sole, also objective of our NRMA.

Thanks & Best of Regards

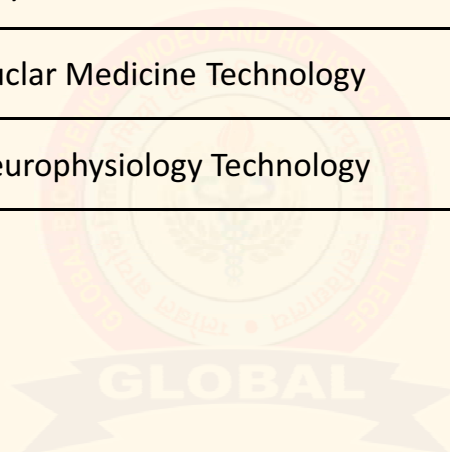

Board of Director/President  
Dr. RAJENDRA R. PANDEY
